Cancer, Ambulatory and Community Health Support

Cancer Nursing

Assistant Director of Nursing, Cancer Ambulatory and Community Health Support (CACHS)

Registered Nurse Level 4.3 \$126,755, Canberra (PN: 18499)

Gazetted: 01 September 2016

Closing Date: 15 September 2016

Details: About us: ACT Health is a values-led Directorate. Our values guide our day-to-day actions, behaviours, decisions and communications to successfully deliver the best services to meet the needs of our community. They were developed by us, for us and are unique to our work. Canberra Hospital and Health Services provides acute, sub-acute, primary and community-based health services to the ACT and surrounding region. The key strategic priority for acute services is to deliver timely access to effective and safe hospital care services. The hospital delivers a full range of medical, surgical and obstetric services, including complex procedures in areas such as cardiac surgery, neurosurgery and neonatal intensive care. Strong links exist between hospital and community-based services, as many of the operational divisions deliver services across the continuum of care to ensure continuity of care for patients. The community based services of ACT Health include early childhood, youth and

women's health; dental services, rehabilitation and community care; mental health and alcohol and drug services. In addition, justice health services are provided within the Territory's' detention facilities. ACT Health is a partner in teaching with the Australian National University, the University of Canberra and the Australian Catholic University. The division of Cancer, Ambulatory and Community Health Support provides a comprehensive range of cancer screening, assessment, diagnostic and treatment services and palliative care through inpatient, outpatient and community settings. The division is also responsible for the administration support to Ambulatory and Community Health centres across ACT Health. Overview of the work area and position: Cancer Ambulatory and Community Health Support (CACHS) are currently seeking applications for the position of Assistant Director of Nursing. The Division provides services through community and hospital based teams and works in close partnership with consumers, carers, families and a range of non-government and community organisations and service providers to ensure the best possible outcomes for the people it serves. The Assistant Director of Nursing, in partnership with the Director of Nursing, is responsible for professional nursing standards and work practices across the Division for both hospital and community based nursing staff. They provide nursing leadership to ensure the delivery of safe, efficient and effective, quality consumer and client focused nursing care. We are seeking Registered Nurses with demonstrated leadership and management experience who wish to further develop their leadership skills and to be part of an exciting multi-disciplinary team. The Assistant Director of Nursing (ADON) holds a senior nursing leadership position within the Division of Cancer Ambulatory and Community Health Support. The ADON in consultation with the Director of Nursing provides strategic leadership, direction, planning and operational input to achieve quality patient care and service delivery outcomes within CACHS. The ADON for CACHS reports to the Director of Nursing. You will actively support, guide and collaborate with the Clinical Nurse Consultants within CACHS in strategic implementation of evidence based practice, auditing, reporting and compliance to standards, procedure and policies across ACT Health and the national governing bodies. Eligibility/Other Requirements: Be registered or have applied for registration with the Australian Health Practitioner Regular Agency (AHPRA). Post graduate qualification or experience in the specialty area of Cancer Nursing is desirable. Experience working at a management level is highly desirable. Prior to commencement successful candidates will be required to undergo a pre-employment Police check. Contact Officer: Gaynor Stevenson (02) 6174 8502 gaynor.stevenson@act.gov.au

Support Services that use technology to efficiently manage the resources which support the Health Directorate in the areas of patient administration and service delivery, staff management, food services, and bed management. Digital Health Infrastructure to provide the foundation to bring existing infrastructure to the standards and capabilities necessary to support future technologies. Overview of the work area and position: The Clinical Systems Program provides program and project management for the delivery and support of clinical systems. The program includes two streams: Patient Record Systems that provide a consolidated, shareable, patient-centric health record enabling information to be made available to the right person at the right place and time, and Clinical Decision Support Systems that provide healthcare professionals with better access to clinical research and evidence, and clinical decision-support tools to enable improvements in the quality, safety and efficiency of clinical practices. The Electronic Medication Management (EMM) Business Analyst is required to undertake analysis and implementation of business solutions for the EMM Project, with a strong focus on service delivery and business improvement. ACT Government Health Directorate is currently implementing a range of e-health initiatives aimed to facilitate a safe, high quality, secure eHealth systems that ensure the right information is available to the right person at the right time, regardless of their location. Electronic Medication Management (EMM) is one of these systems currently being rolled out across ACT Health. The Electronic Medication Management project team is looking for an enthusiastic, motivated individual to provide lead business analyst support for the EMM project. As the EMM lead business analysts you will be responsible for managing delivery of business analysis activities for the EMM project. This includes developing process maps, managing the deliverable timelines, identifying business workflows, managing the use of BA tools, developing and executing business analysis documentation and liaison with key business stakeholders. The candidate should have strong interpersonal, leadership, communication, organisations and problem solving skills. Eligibility/Other Requirements: A qualification in Business Analysis or equivalent education/training, or five or more years experience as a Business Analyst is highly desirable, but not a requirement. Experience in UML and the use of Sparx Enterprise Architect is highly desirable, but not a requirement. Please note prior to commencement successful candidates will be required to undergo a pre-employment Police check.

Note: This is a full-time temporary position available for 12 months with the possibility of an additional six month extension. Applicants are to address the selection criteria, provide a resume and two referees. Selection may be based on application and referee reports only.
