CED was established to align planning and transport, improve efficiency of development decisions, support environmental management, consolidate city services operations, and strengthen how government connects with the community. Our work spans the natural and built environments, city and transport services, and regulatory and customer service functions.

We are here to:

- Consolidate operations for greater efficiency and impact.
- Make government services more accessible, transparent and trusted.

At CED, we put people and place at the centre of everything we do. Whether shaping policy, maintaining public spaces, designing transport networks or supporting regulatory access, our people contribute to a connected, inclusive and resilient Canberra.

DIVISION OVERVIEW

What we do

At Access Canberra, we are all about giving people easy access to ACT Government regulatory services, payments and information while offering great customer experience. We help community organisations, business and individuals work with the ACT Government and constantly look for new ways to deliver our services.

Access Canberra is unique to the ACT Government; we work across many different regulatory and customer service areas to support the delivery of regulatory reform and red tape reduction, drive government priorities and implement new initiatives. We actively engage in a risk and harm approach to compliance across a broad range of industry sectors to build a strong economy, safe community and sustainable environment.

Who we are

We are a diverse, innovative and professional team of people who come from a wide variety of backgrounds. We welcome people with experience from the community, public and private sectors and believe the more diverse our knowledge base is, the better our results will be.

We value people with innovative and creative ideas, who communicate with candour and respect, and who have the motivation to drive projects from conception through to delivery. We are curious about each other's work and always ask "who else needs to know?"

THE TEAM YOU WILL WORK IN

This includes undertaking assessments which includes gathering and scrutiny of information with due consideration of the Risk Assessment Guidelines, and preparing detailed recommendation reports for the delegate outlining any conditions that may be suitable in responding to risks an applicant or WWVP registration holder poses to a vulnerable person while engaging in a regulated activity or service.
